

# STICHTING WATERPAS

## MAGAZINE 2019

Elke dag gezond en schoon drinkwater voor schoolkinderen in een gebied waar dat niet vanzelfsprekend is. Een gebied waar een hoge kindersterfte is als gevolg van het drinken van vervuild water. Elke dag gezond en schoon drinkwater op school betekent minder uitval door allerlei 'waterborne diseases', een betere concentratie en uiteindelijk een betere ontwikkeling!

## U MAAKT HET MOGELIJK!

In 2006 richtten twee bevlogen Nederlandse ondernemers in het oosten van Afrika (Kenia/ Mombassa Regio) een waterfabriek op met het doel gezond en schoon drinkwater te kunnen leveren aan de lokale bevolking. Zij deden dat omdat ze met eigen ogen hadden waargenomen dat het gebrek aan schoon drinkwater enorme consequenties had voor het leven van gezinnen in deze regio.

Dutch Water werd opgericht, gebruikmakend van 'state of the art' waterzuiveringsinstallaties uit Nederland. Het bedrijf werd al snel een begrip in de regio als leverancier van gezond en schoon drinkwater.

Vanaf de oprichting van Dutch Water werd ook dagelijks gratis water aan de vele scholen en weeshuizen in de regio geleverd door Dutch Water. Klein begonnen is dat inmiddels uitgegroeid tot meer dan 2.000.000 liter gezond en schoon drinkwater per jaar. De financiering van die leveringen van gezond en schoon drinkwater werd mogelijk gemaakt door Nederlandse donor bedrijven via Stichting Waterpas.

Met het donorgeld van Stichting Waterpas werd zodoende aan Dutch Water opdracht gegeven om vele duizenden schoolkinderen op dagelijkse basis van gezond en schoon drinkwater te voorzien. De vraag van scholen naar dit drinkwater is enorm en het effect op concentratie, leerprestaties en zodoende ontwikkeling van de kinderen is eveneens groot.

Dutch Water rapporteert over haar leveringen aan scholen en weeshuizen met een frequentie van eenmaal per jaar. Dit magazine bevat de rapportages over het jaar 2019.

Namens de kinderen van Oost-Kenya bedanken wij u uit de grond van ons hart voor uw donaties die dit mogelijk maken!

Het Bestuur van de Stichting Waterpas

# CHRISTMASS PARTY WATER!!!

DECEMBER 2018    SHOW GROUND

Quantity  
**4.000** Litres

Consumption  
**0.7** / pax

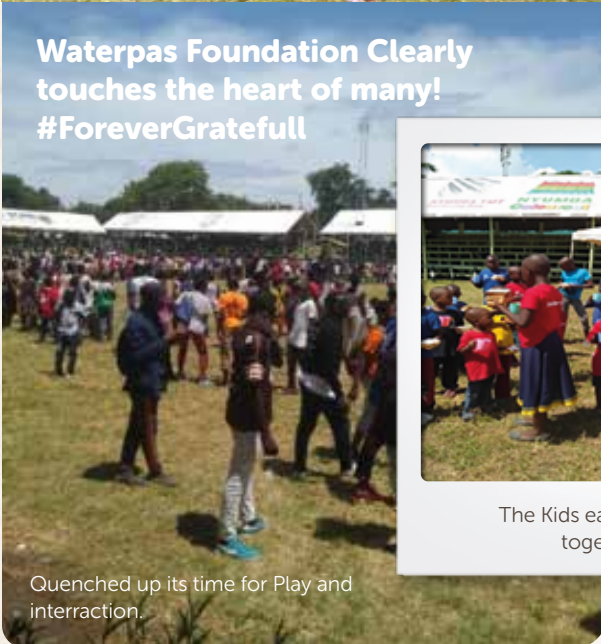

Children & Adults

The Kids eat and Drink together!

Different Ophanages meet and greet moments

Every Year Talanta Kenya a charitable organization holds a Christmas part for all orphans (Approx.. 5500 kids) in and around Mombasa. Stichting Waterpas has been an integral part of this Christmas party through Dutch Water Ltd by providing Water that is used for that entire day.

# BOKOLE HEALTH CENTRE

AUGUSTUS 2018    MAGONGO/ CHANGAMWE

Director  
**Mnyika Righa**

De voorzieningen in het hospitaaltje zijn goed te noemen naar Kenyaanse normen.

Nieuwe wereldburger, één uur oud!

Er is veel aandacht voor kraamzorg. Er bevallen 50-60 vrouwen per maand in dit hospitaaltje. Zij zijn afkomstig uit het omringende straatarme gebied.

Het kunnen beschikken over schoon water is van groot belang voor Bokole Health Centre.

U voorziet deze kliniek van schoon en gezond drinkwater; elke dag opnieuw!

Bokole Health Centre is een Kliniek(je) met de voorzieningen van een 'dokterspost' in Nederland. Gevestigd in een arm gebied in Magongo/ Changamwe. Infectieziekten (zoals Malaria, long infecties e.d.) en (eenvoudige) verwondingen, worden behandeld tegen lage kosten. Diarree (a.g.v. vervuild drinkwater) is de no. 1 'aandoening' in dit gebied.
